MEMORANDUM FOR SIDPERS USERS

SUBJECT: Software Version Description (SVD) for the Installation Support Module (ISM) Standard Installation Division Personnel System (SIDPERS) Interim Change Package (ICP) V40-A85-02-06-A

1. Enclosed is ICP V40-A85-02-06-A, which provides a formal change to Standard Installation Division Personnel System (SIDPERS) ISM.
2. Acknowledgement of this ICP installation must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: None.

1.0 Scope.

1.1 Identification.

This Software Version Description (SVD) applies to the Standard Installation Division Personnel System (SIDPERS) running on networked AIX operating system on UNIX platforms.

1.2 System Overview.

ISM applications use the Installation Level Integrated DataBase (ILIDB), which is the central repository for data common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

1.3 Document Overview.

This document provides the instructions necessary for implementing the formal SIDPERS Interim Change Package (ICP) V40-A85-02-06-A. It informs users of changes made to the system and provides Points of Contact (POCs) in the event of problems or questions.

2.0 Referenced Documents.

This paragraph has been tailored out.

3.0 Version Description.

3.1 Inventory of Materials Released.

This paragraph has been tailored out.

3.2 Inventory of Software Contents.

Hardware platform UNIX AIX OS users (installation supported).

This change package contains the following files.

Program	Version	Update
sid3_0206.cpio.Z	0200	8 Sep 2000
install_sid3_0206	0200	8 Sep 2000
README.sid3_0206	0200	8 Sep 2000

3.3 Changes Installed.

3.3.1 Corrector Descriptions—Technical.

1. ECP-S/E V40-A15N-008
 - A. CYCLES: None.
 - B. PROGRAM: SID3
 - C. PROBLEM: V40-A15N-005, implemented in ICP 02-04, changed the order of preference for determining a soldier's UIC so that the attached UIC was chosen first with the next choice being the assigned UIC. Since the paperwork to 'un-attach' a soldier was not always submitted, inaccurate/incorrect soldier data was being stored in the ILIDB.
 - D. RESOLUTION: Modified the SID3 preference to the current assignment UIC, with the UIC left blank if no current assignment exists in the provided SIDPERS-3 data.
 - E. ICP: V40-A85-02-06-A

3.3.2 Corrector Descriptions—Functional.

None.

3.3.3 Summary of Changes.

1. Copy library member changes.
 - a. Changed: None.
 - b. Deleted: None.
 - c. Added: None.
2. Control library member changes.
 - a. Changed: None.
 - b. Deleted: None.
 - c. Added: None.

3.4 Adaptation Data.

This paragraph has been tailored out.

4.0 Related Documents.

4.1.1 Technical Documentation Changes.

A new AIX version of Software Center Operator Manual (SCOM), AISM 25-V40-AIX-SCOM dated 10 December 1999 has been issued. You may obtain the current version of AISM 25-V40-AIX-SCOM from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-ES, H-6
Fort Belvoir, VA 22060-5576

4.1.2 Functional Manual Changes.

A new AIX version of Software User Manual (SUM), AISM 25-V40-AIX-SUM dated 01 December 1999 has been issued. You may obtain the current version of AISM 25-V40-AIX-SUM from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-ES, H-6
Fort Belvoir, VA 22060-5576

4.2 Installation Instructions.

Pre-Install Procedure. Before beginning to install SIDPERS ICP V40-A85-02-06-A onto the ISM host computer, follow this procedure to make sure you have the correct information when installing.

Install Procedure: This procedure installs ICP V40-A85-02-06-A SIDPERS3 R02.00 onto the installation servers running AIX4.2/Oracle 7.3.3. This portion of SIDPERS3 R02.00 must be installed on each server at the installation.

Use the following procedure to install the ICP V40-A85-02-06-A:

Step 1. Log in with the login name of *root*.

Step 2. Change directory to the home directory for the user *sid3* or to */tmp*.

Step 3. Create a directory named ICP.0206.

Step 4. Copy the following files for ICP 0206 in the directory ICP.0206.

Program	Size	Update
sid3_0206.cpio.Z	1306479	8 Sep 2000
install_sid3_0206	1130	8 Sep 2000
README.sid3_0206	1097	8 Sep 2000

Step 5. Change directory to ICP.0206 and type:

```
chmod 777 install_sid3_0206 <Enter>
./install_sid3_0206          <Enter>
```

Step 6. The install_sid3_0206 program completes the following:

- a. Uncompress and uncpio the sid3_0206.cpio.Z file. Change the ownership of and copy the files in this ICP to the home directory of the user sid3.
- b. Record all output from each of the steps performed in a file named sid3_0206.log located in the ICP.0206 directory.

Note: Copy the resulting log, sid3_0206.log, to the ISSC account directory upon termination of the installation process. Review the resulting log.

4.2.1 Installation Effective Date.

This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

4.2.2 Security Implications.

This paragraph has been tailored out.

4.2.3 ANSOC Installation Instructions.

All users receive the same baseline with a change package number through e-mail and the Status Tracking and Reporting

Change Control Package Number: V40-A85-02-06-A

System (STARS) Bulletin Board System (BBS). This change package contains the following files:

Quantity	File ID	System	Change Package No.
1	sid3_0206.cpio.Z install_sid3_0206 README.sid3_0206	AIX OS 4.2	V40-A85-02-06-A

Ensure completion of all master file backups prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Note: Users must *not* make changes to the files.

Security impact: None.

4.2.4 Special Installation Instructions—All Users.

None.

4.2.5 Point of Contact.

If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3046.

4.2.6 Report of Implementation.

Report the implementation of this change package by completing the change package implementation form. Send this report to Ft. Huachuca using Fax or email.

4.3 Possible Problems and Known Errors.

This paragraph has been tailored out.

Change Control Package Number: V40-A85-02-06-A

5.0 Notes
